Hey Eric,

So far we have only received package with the Gamma data for the ingrowth count plus Isotopic Thorium data for NFB, which contains some sample data for Area 1. I'm assuming that now with all of the HTC "as is" runs completed yesterday, that we will begin seeing more of these come in quickly for NFB. Also, I will forward you that email with the preliminary data package and a response from Mike McDougall. I think Lindsay might find interest in his response.

-Patrick

Thanks Patrick. Lyndsey and I just got on site this AM. All is going well so far. Please send Lyndsey and me the NFB and yes the same products are needed for HTC. Do we not have the NFB total analysis results now?

No problem! Sure do:

Shelby Crushed Stone, Inc.
10830 Blair Road, Medina, NY 14103
(585) 798-4501

How's it going on site? Also, I just finished getting NFB tables completed and reviewed comparing all of the "as is" results to HGPe results. Would you like me to send this over to you? I also just received the last "as is" results for HTC at COB yesterday afternoon. Would you like to see a similar table for HTC?

Thanks,

Patrick Buster

Hi Patrick. I am not sure if I was able to thank you. Thank you for this.

Do you have the information on the asphalt contractor you used during our sampling event? We want to use to patch a few areas.

Thanks

Hi Eric:

00070072-01 – this TDD was for CHP data validation of concrete / soil / rinsate samples collected in June – September 2016.
00070011-04 – this TDD was to add an additional 300 hours for RST3 to continue work assigned in the original SOW.
00030022-00 – this is an ID/IQ labor TDD for the removal assessment activities from May 7 – 27, 2017.

00070012-04 – Added an additional 120 to the original SOW.
00070117-02 – TDD to document supplemental hours provided under TO 0009.

Indeed these are the only assessment codes for HTC and 738 UMR.

Let me know if you need any additional information. Thanks!

-Patrick

Subject: Weston TDD

Good Morning:

How are you all? I am current with identifying my individual removal TDD numbers for NFB but I need assistance on which assessment code is which task for evaluation purposes. Please provide brief description that goes with each TDD. Thanks

NFB

00070072-01	Niagara Falls Blvd. Rad.	RS	0.0	339.4	58,294.24	Daly, Eric
00070011-04	Niagara Falls Blvd. Rad.	RS	500.0	166.3	27,031.51	Daly, Eric
00030022-00	Niagara Falls Blvd. Rad.	RS	133.0	129.0	9,677.09	Daly, Eric

I assume for HTC and 738 UMR, these are both the only assessment codes currently for the sites. Please confirm.

00070012-04	Holy Trinity Cemetery	RS	770.0	304.3	44,154.93	Daly, Eric
00070117-02	738 Upper Mountain Rd.	RS	200.0	111.7	12,855.04	Daly, Eric
